## Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a process for laser processing a silicon, gallium arsenide, indium phosphide, or single crystalline sapphire substrate including, generating first laser system output having at least a first laser pulse at a wavelength shorter than 400 nm and having an output pulse energy of greater than 100  $\mu$ J at a repetition rate of greater than 5 kHz; directing the first laser system output at a target location on the substrate to ablate substrate material at the target location with a first spot area of less than 25  $\mu$ m on the surface of the target material; generating second laser system output having at least a second laser pulse at a wavelength shorter than 400 nm and having an output pulse energy of greater than 100  $\mu$ J at a repetition rate of greater than 5 kHz; directing the second laser output to impinge a second target location with a second spot area of less than 25  $\mu$ m on the surface of the target material such that the second spot area at least partly overlaps the first spot area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1732

Conclusion

2. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Stefan Staicovici, Ph.D. whose telephone number is (571) 272-

1208. The examiner can normally be reached on Monday-Friday 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Michael P. Colaianni, can be reached on (571) 272-1196. The fax phone number for

the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
